Helping to Protect Fisheries From Predation: Angling Trust Fisheries Management Advisors

After the Angling Trust campaign to persuade the government to take action on avian predation, two Fisheries Management Advisors, who are funded by rod licence money, are now employed by the Angling Trust.

Our Fishery Management Advisors can help you protect your fishery from predation with site visits and bespoke advice on:

- Improving refuge for fish from predation
- Modern, effective non-lethal scaring methods
- Individual & Area based Cormorant control licence applications
- Coordination of action through 'Area based' licences
- Monitoring bird numbers and evidencing of the impacts of predation
- Protecting fisheries against otters
- The Legal and humane trapping and removal of otters from fenced fisheries

Fisheries Management Advisors - Contact details
